1.0 Project Overview

The Wainfleet Wind Energy Project's ("the Project") Consultation Plan Report was prepared in accordance with the requirements of the Ministry of the Environment's Renewable Energy Approvals Regulation ("the Regulation"), O.Reg 359/09, specifically with consideration for *Item 2* of the requirements as outlined in *Table 1* of the Regulation.

The proposed Wainfleet Wind Energy Project is to be situated in the Township of Wainfleet, in the Niagara Region of Ontario. The Project would consist of five (5) Vestas V-100 1.8 megawatt wind turbines producing a nameplate capacity of 9.0 megawatts. If approved, the wind turbines would be erected for the purpose of capturing energy from the wind, a renewable resource, and converting it into clean, useable electricity. This electricity will be transported to consumers via interconnection facilities, including transformers and distribution lines. The footprint of these facilities is described in the reports prepared for this Renewable Energy Approval (REA).

A Consultation Report was prepared to detail the consultation activities undertaken as part of the REA process including the following:

- A summary of communication with members of the public, Aboriginal communities, municipalities, local roads boards, and Local Services Boards regarding the project
- Evidence that the information required to be distributed to Aboriginal communities under Subsection 17(1) was distributed
- Any information provided by an Aboriginal community in response to a request made under paragraph 4 of subsection 17(1)
- Evidence that a consultation form was distributed in accordance with subsection 18(1)
- The consultation form distributed under subsection 18(1), if any part of it has been completed by a municipality, local roads board or Local Services Board
- A description of whether and how:
 - Comments made by members of the public, Aboriginal communities, municipalities, local roads boards and Local Service Boards were considered by the Project Team
 - The documents that were made available under subsection 16(5) were amended after the final public meeting was held
 - The proposal to engage in the project was altered in response to comments made from members of the public, Aboriginal communities, municipalities, local roads boards and Local Service Boards

This addendum report has been prepared to expand upon consultation activities conducted with Aboriginal communities throughout the Renewable Energy Approval (REA) process defined under Ontario Regulation 359/09 and document additional consultation activities undertaken since the Proponent's submission of the REA application to the Ministry of the Environment (MOE).

2.0 Aboriginal Consultation

Aboriginal consultation is a mandatory component of the Renewable Energy Approval process as defined under O. Reg. 359/09. The Proponent's consultation program was designed to notify and share information with Aboriginal communities early on in the planning process in order to:

- Obtain information on any potentially affected rights;
- Listen to any concerns raised by an Aboriginal community; and
- Consider any adverse impacts and determine how to address concerns, including attempting to avoid, minimize and/or mitigate adverse impacts on Aboriginal or treaty rights.

2.1 Identifying Aboriginal Communities and Potential Interests

It is the Crown's Duty to Consult with Aboriginal communities in relation to potential or established Aboriginal or Treaty rights. The legal duty to consult rests with the Crown, however through the REA process the Crown has delegated procedural aspects of consultation to the Proponent. Therefore Proponents of renewable energy projects are required to engage in meaningful consultation with Aboriginal communities.

A list of aboriginal communities was provided by MOE on July 9th, 2010 which identified communities who may have constitutionally protected aboriginal or treaty rights that may be adversely impacted by the project, or otherwise may be interested in any negative environmental effects of the project. The identified communities are as follows:

- Six Nations of the Grand River;
- Six Nations of the Grand River, Haudenosaunee Confederacy Council;
- Mississaugas of the New Credit First Nation;
- Métis Nation of Ontario; and
- Niagara Region Métis Council

These communities were subsequently notified and provided with project documents and materials in accordance with O. Reg. 359/09. Please refer to Section 5.2 of the original Consultation Report dated July 2012 for a complete description of the distribution of required materials.

2.2 Additional Details Regarding Aboriginal Consultation

Throughout the REA process multiple written requests were made to each Aboriginal group to identify and provide information regarding potential impacts the project may have on Aboriginal or Treaty Rights. The following discussion provides an update on the status of aboriginal consultation and responses/feedback received since the Proponent's submission of the REA application to MOE.

Six Nations of the Grand River

No information or response received to date from the distribution of required materials under O. Reg. 359/09 as provided in Table 8 of the original Consultation Report. The Proponent will continue to inform the Six Nations of the Grand River of project updates as they become available and as specific milestones are reached.

Six Nations of the Grand River Haudenosaunee Confederacy Council

The Proponent has been advised that the Haudenosaunee Confederacy Chiefs Council ('HCCC') has delegated authority to the Haudenosaunee Development Institute ('HDI') to represent HCCC interests in the development of lands within areas of the Haldimand Proclamation and the 1701 Nanfan Treaty Area.

HDI has provided the Proponent with an Application for Consideration and Engagement for Development, which outlines additional information requested by HDI to initiate a review of the project on behalf of the Six Nations of the Grand River Haudenosaunee Confederacy Chiefs Council. **Table 1** provides an updated summary of additional consultation activities undertaken since the Proponent's submission of the REA application.

The Project Team met with HDI and Haudenosaunee leadership on August 7th, 2012 to provide a project overview, share information and to discuss any concerns with respect to the project and potential impacts to Aboriginal or Treaty Rights. Main discussion points from the meeting included potential impacts to 1701 Nanfan Treaty concerning hunting and harvesting rights over the lands the project is situated and procedural matters moving forward.

The Proponent will continue to discuss the project with HDI/Haudenosaunee leadership to address any outstanding concerns regarding potential impacts to traditional hunting and harvesting rights under the 1701 Nanfan Treaty, however the project is located on private lands outside of the Haldimand Tract and will not impact any existing access rights to lands for hunting or harvesting.

If any further discussions or review of project materials raises new questions concerning negative environmental effects associated with the project's construction, operation or decommissioning, they will be addressed through mitigation measures outlined in prepared project reports and further discussions with HDI/Haudenosaunee leadership.

Copies of additional aboriginal correspondence has been included in **Appendix A**

Table 1: Summary of Additional Consultation Activities Undertaken with Six Nations of the Grand River Haudenosaunee Confederacy Council	
Date	Correspondence Description
April 20, 2012	A call was placed to the Haudenosaunee Confederacy Council regarding the proposed project and distribution of updated project materials. Haudenosaunee Confederacy Council representative advised that all project correspondence should be sent directly to the Haudenosaunee Development Institute (HDI).
June 19 th , 2012	A letter was sent by the Haudenosaunee Development Institute (HDI) on June 19 th 2012 and received June 28 th , 2012 identifying that they have treaty rights, in the particular area proposed for the Wainfleet Wind Energy Project concerning the 1701 Treaty Area. HDI requested further engagement in the form of an Application for Consideration and Engagement to determine if the nature of the infringements are justified or can be accommodated. The Application also includes an associated fee for HDI to review and comment on the project.
July 3 rd , 2012	IPC Energy left voicemail requesting to arrange a meeting with HDI to discuss the project.
July 3 rd , 2012	The Proponent sent a response letter by mail requesting a meeting to provide additional information regarding the project and further discuss identified concerns before considering completion of the Application for Consideration and Engagement. In addition the Proponent faxed the letter mailed to HDI July 3 rd 2012 on July 6 th , 2012.
July 5 th , 2012	IPC Energy left voicemail requesting to arrange a meeting with HDI to discuss the project.
July 9 th , 2012	HDI sent the Proponent a response letter agreeing to meet with the project team, and suggested two possible meeting dates.
July 18 th , 2012	An email was sent from the Project Team to HDI accepting a suggested meeting date of July 31 st , 2012. No response was received from HDI on this correspondence and subsequently a meeting on July 31 st , 2012 did not take place.
July 26 th , 2012	HDI sent a Project Team member an email inviting them to attend an upcoming Board Meeting scheduled for August 7, 2012.
August 3 rd , 2012	Project Team member spoke with/emailed HDI office manager to confirm availability to attend upcoming Board Meeting on August 7, 2012.
August 7 th , 2012	The Project Team met with HDI/Haudenosaunee Leadership on August 7, 2012 to provide a project overview, share information and to discuss any concerns with the project. Main discussion points from the meeting included potential impacts to harvesting and hunting rights over the land the project is located on as a result of the 1701 Treaty.

Mississaugas of the New Credit First Nation

No information or response received to date from the distribution of required materials under O. Reg. 359/09 as provided in Table 8 of the original Consultation Report. The Proponent will continue to provide the Mississaugas of the New Credit First Nation with project updates as they become available and as specific milestones are reached.

Métis Nation of Ontario

No information or response received to date from the distribution of required materials under O. Reg. 359/09 as provided in Table 8 of the original Consultation Report. The Proponent will continue to provide the Métis Nation of Ontario with project updates as they become available and as specific milestones are reached.

Niagara Region Métis Council

No information or response received to date from the distribution of required materials under O. Reg. 359/09 as provided in Table 8 of the original Consultation Report. The Proponent will continue to provide the Niagara Region Métis Council with project updates as they become available and as specific milestones are reached.

3.0 Moving Forward

At the time of submitting this addendum report no further responses have been received by the Proponent from identified aboriginal communities that were distributed notices and project materials as required by O. Reg. 359/09.

The Proponent will continue consultation activities with HDI/Haudenosaunee leadership to address any outstanding concerns.

Once the Project's REA application has been accepted by the Ministry of the Environment the Proponent will notify each aboriginal community of the project's application acceptance and subsequent posting to the Environmental Registry for a 30-day review and comment period. The Proponent will respond to any further correspondence received from aboriginal communities and address any additional issues of concern as they are identified.

Appendix A: Additional Aboriginal Correspondence

Haudenosaunee Development Institute

June 19, 2012

Mr. Tom Lewis
Project Manager, IPC Energy
2550 Argentia Road, Suite 105
Mississauga, Ontario, L5N 5R1

Dear Mr. Lewis:

Re: Wainfleet Wind Energy Project
Our File No.: 030-103

Thank you for your letter dated April 18, 2012 and attachments.

The Haudenosaunee Confederacy Chiefs ('HCCC') has legislated the Haudenosaunee Development Institute ('HDI') to represent HCCC interests in the development of lands within areas of Haudenosaunee jurisdiction, including but not limited to the land prescribed by the Haldimand Proclamation and the 1701 Treaty Area.

We can confirm that the Haudenosaunee have treaty rights, in particular in the area contemplated by your Project, including but not limited to, the right to free and undisturbed harvesting. As the proposed Project will have a negative impact upon those treaty rights, the nature and scope of engagement required is significantly above and beyond what is commonly referred to as "consultation".

The HDI has established and administers a regulatory framework, which identifies, registers and regulates development in compliance with the regulatory obligations outlined in our Lands Rights Statement, the Haudenosaunee Green Plan and Haudenosaunee Development Protocol.

Part of the process requires an application for Engagement to be submitted to the HDI which I have attached for your ease of reference. The Application for Engagement provides proponents a structured engagement process which allows the HDI to set up and clarify the nature of what will be impacted by the Project and to determine if those infringements are justified and whether or not they can be accommodated.

OUR LAND, OUR LAW, OUR PEOPLE, OUR FUTURE

I look forward to receipt of your application at which time we can arrange a convenient time to meet to discuss your Project.

Yours truly

**APPLICATION FOR CONSIDERATION
AND ENGAGEMENT FOR DEVELOPMENT**

NOTE: *This application to be completed in quadruplicate.*

SECTION 1: APPLICANT INFORMATION

1.1 Name of applicant and full mailing address:

Tel: _____

Fax No.: _____

1.2 Name of Registered owner(s) of subject land(s) and mailing address:

1.3 Party who is to be contacted about the application (check one):

Applicant Agent, Planning Consultant Owner Surveyor

Name and address:

Tel: _____

Fax No.: _____

Email: _____

SECTION 2: LOCATION OF LANDS PROPOSED TO BE DEVELOPED

2.1 Municipal address:

2.2 Legal description (please attach survey):

2.3 Maps (please attach):

SECTION 3: PROPOSED AND CURRENT LAND USE

3.1 Current land use: (i.e. Agricultural, residential, commercial, industrial, other):

3.2 Proposed use of subject land:

3.3 Are there any buildings or structures on the lands proposed to be developed?
If yes, are these buildings to be retained, demolished or otherwise removed?

SECTION 4: ADDITIONAL INFORMATION FOR THE SITE

4.1 Current zoning: _____

SECTION 5: ARCHAEOLOGY

5.1 Have any archaeology studies been completed? If yes please attach.

5.2 If no archaeology studies have been undertaken to date are any archaeology studies planned? Please include any relevant details.

SECTION 6: LAND TITLE

6.1 Please provide details and a history of the title including any information on the initial Crown patent and how the Crown obtained such patent.

SECTION 7: TIME FRAME

7.1 Please set out the scheduling proposed for the project and any significant dates.

SECTION 8: OTHER PERMITS, LICENCES AND/OR APPROVALS

8.1 Please provide details with respect to any other permits, licences and/or approvals which the Applicant is seeking for the project from any municipal, provincial and/or federal authority.

SECTION 9: APPLICATION FEE

9.1 An application fee is enclosed in the amount of \$ _____ on the basis that the cost of the proposed project is:

- Less than \$300,000 (fee of \$3,000)
- Greater than \$300,000 but less than \$500,000 (fee of \$5,000)
- Greater than or equal to \$500,000 (fee of \$7,000)

SECTION 10: OTHER INFORMATION

10.1 The HDI reserves the right to request such other information as it deems necessary in its sole discretion to process this application.

SECTION 11: FORM OF APPLICATION

11.1 This form is provided for information purposes and requests the minimal information required to process an application. An applicant is free to amend the form as necessary and include such other information as necessary.

11.2 Application is to be provided to:

Haudenosaunee Development Institute
16 Sunrise Court, Suite 407
P.O. Box 714
Ohsweken, Ontario
N0A 1M0
Tel: 519.445.4222

SECTION 12: SIGNATURE OF APPLICANT

Name of Applicant:

Signature of Applicant:

Dated this _____ day of _____, 20____.

**Re: HAF Wind Energy Project HDI File Number 030-102
& Wainfleet Wind Energy Project HDI File Number 030-103**

Dear Ms. Hill,

This letter is to confirm that IPC Energy has received your letters dated June 19, 2012 with respect to the HAF Wind Energy and Wainfleet Wind Energy projects.

IPC Energy has made several unsuccessful attempts to reach you via telephone intending to set up a meeting with you to discuss our two projects and address your letters, as referenced above. We ask, therefore, that you provide two possible dates and times that would be convenient for us to meet with you.

I look forward to hearing from you and would like to thank you in advance for your cooperation in this matter.

Regards,

Dear Ms. Hill

I thank you for your letter of July 9, 2012 offering 2 dates that you are available to meet.

We are thankful for HDI agreeing to meet with the us, however, we would like the opportunity to present additional information about the projects and to obtain further understanding of the HDI/the Haudenosaunee Confederacy Chiefs Council's concerns prior to submission of the requested application and associated fee.

We are more than willing to share information regarding our projects and to listen to your concerns. If this is acceptable to you we would be available to meet on July 31, 2012 at 1:00pm as you suggested and at a location of your choice.

Best Regards,
John
